Southwest Finland: Salo-Turku-Pori Center of Expertise in Battery Technology & Electrification

Salo
Intelligent Production

- Production site for car battery packs
- Infrastructure for novel versatile production
- Battery chargers and power supplies

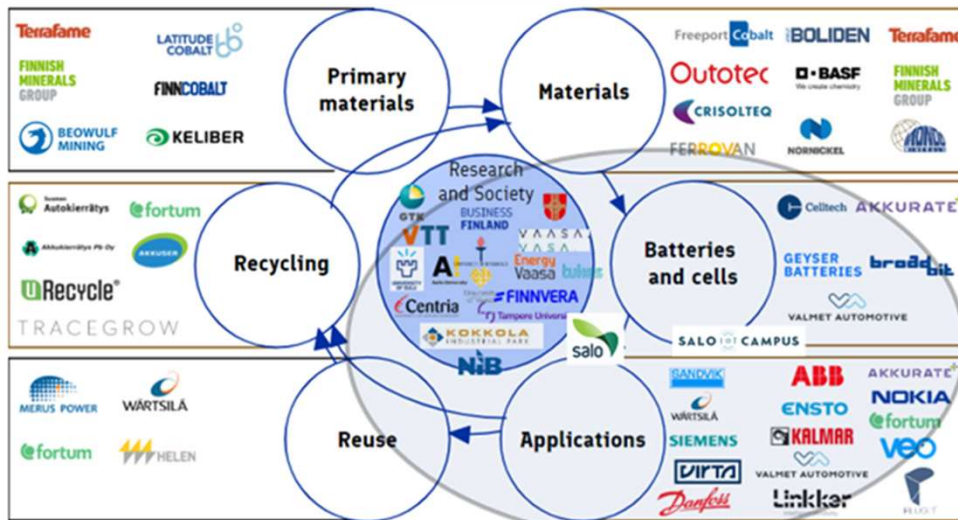

Turku
Innovation Centre

- Harsh use battery development for Maritime and Mining applications
- Startup companies: novel materials, circular economy, digitalization
- City as a testbed: Electric vehicles on an entire line of public transport

Pori
Technology Metal Cluster

- Mining industry
- Refining, recovery & recycling
- Novel materials for battery applications
